## CAREER OBJECTIVE

Seeking an entry-level Web / Full Stack Developer role where I can apply my project experience in React, Next.js, MongoDB, and Tailwind CSS to build user-focused web applications. Currently pursuing a Java Full Stack training program, with a strong foundation in Core Java and OOPs. Motivated to learn, grow, and contribute effectively to real-world development projects.

## EDUCATION

<b>Technocrats Institute of Technology</b> Bachelor of Technology   CSE - AIML	8.09	2021 - 2025
<b>RK+2 High School Lalgah Palamua ( JAC Board )</b> Senior Secondary ( CLASS XII )   Science Stream	74.6%	2019 - 2021
<b>High School Kikra Danda ( JAC Board )</b> Secondary ( CLASS X )	72.20%	2018 - 2019

## SKILL

- **Language :** Java, Javascript
- **Web / Frontend :** HTML, CSS, Bootstrap, Tailwind CSS, React, Next JS
- **Database :** SQL, MongoDB
- **API & Integrations:** Gemini API, Clerk Authentication, Inngest Workflows
- **Concepts & Tools :** OOPs, Git, GitHub, VS Code

## PROJECT

### E-Commerce Web Application ( Next.js )

Built an e-commerce web application using Next.js, MongoDB, and Tailwind CSS. Implemented user authentication with Clerk, product listing, cart functionality, and order management. Integrated backend APIs and background workflows using Inngest to handle asynchronous tasks efficiently.

### AI Chatbot Web Application (ChatGPT-like)

Built and deployed an AI-powered chatbot using React.js and Gemini API that provides real-time conversational responses. Designed a modern, user-friendly chat interface and integrated API-based message handling.

## PROFESSIONAL TRAINING

### Java Full Stack Developer Trainee

Jul 2025 - Ongoing

Kodnest Technologies, Bengaluru, Karnataka, India

- Strong understanding of Core Java fundamentals and OOPs concepts
